

Sebi proposes framework to regulate ESG rating providers

SEBI ON MONDAY proposed a framework to regulate ESG (environment, social and governance) rating providers that

seeks to allow credit rating agencies and research analysts to provide such services. In its consultation paper,

Sebi has proposed that credit rating agencies (CRAs) and research analysts with a minimum net worth of ₹10 crore

would be eligible to be accredited as a ESG rating provider or ERP.

STFC Q3 net down 6.47%

PRESS TRUST OF INDIA
Mumbai, January 24

NBFC SHRIRAM TRANSPORT Finance Company (STFC) on Monday reported a 6.47% decline in its standalone profit after tax at ₹680.62 crore for the quarter ended December 2021 even as its net interest income increased by 11.16%. The company had reported a profit after tax of ₹727.72 crore in the same period of the previous year.

Vice chairman and managing director Umesh Revankar attributed the fall in profit to the revised prudential norms on income recognition, asset classification and provisioning pertaining to advances issued in November last year, which led to higher NPAs (non-performing assets).

Fresh slippages for Q4 to be less: Bandhan Bank MD

MITHUN DASGUPTA
Kolkata, January 23

BANDHAN BANK EXPECTS fresh slippages or the fresh addition of bad loans for the fourth quarter to be less than that of for the third quarter this fiscal despite the wave of Omicron as it believes the current surge in Covid-19 cases is unlikely to affect its asset quality.

For the lender, fresh slippages net of recovery from stressed accounts stood at ₹1,893 crore in the October-December period of 2021.

"I have not seen any impact of the Omicron wave on our bank's asset quality. Collection efficiency for January has been similar to that of December last year. Recovery time with an

Omicron-related infection is generally fast. So, at the ground level, our customers' businesses are doing good despite the third wave of the pandemic," MD and CEO Chandra Shekhar Ghosh told FE.

The bank's collection efficiency for the EEB segment (erstwhile micro banking segment) for December stood at 92% (including NPAs) against 86% in September 2021. It was 97% (excluding NPAs) for December versus 93% in September 2021. In Assam, collection efficiency for December rose to 96% from 82% in September.

According to Ghosh, it would take "a couple of quarters" for the bank to get back to pre-pandemic levels on all

fronts. For restructured customers, a moratorium on loan repayments is up to June. However, around 2/3rd of the restructured customers continued to pay voluntarily. The share of full paying customers stood at 89% in December, up from 79% in September 2021. Around 66% of NPA customers continued to make payments in a bid to regularize their overdue loan accounts as the earliest. Bandhan Bank has not seen any impact of the third wave of the pandemic on demands for loans this quarter. "For the bank, business in the last quarter has always been higher compared to the other quarters. I don't see that this quarter (Q4FY22) will be different," the MD added.
