

A photograph of a bright, modern interior space. The floor is made of light-colored wood veneer. On the left, there is a fireplace with a white mantel and a marble surround. To the right, a white staircase with wooden treads and a white balustrade leads up. The room is well-lit, with natural light coming from a window or skylight, casting shadows on the floor.

GREENPANEL VENEERED FLOORS

Greenpanel Wood Veneer Floors have the look and feel of natural wood, along with all the advantages of a high-density fibreboard core. They have high tolerance for impact, and changes in humidity and temperature. They have a UV-cured lacquer coating to protect against scratches and stains. Greenpanel Wood Veneer Floors come with a warranty of 10 years. They are available in three luxe categories Classic: Natural wood-surface floors that are easy on the eyes and easier on the pocket. Premium: The plush look and feel of wood, with veneers that are handpicked from around the world. Elite: In a word, luxurious.

CLASSIC

They have a UV-cured lacquer coating to protect against scratches and stains. A super-compact high-density fibreboard core gives them high tolerance for impact and humidity, as well as changes in temperature.
