

GREENPANEL VENEERS

Greenpanel Veneers are thin sheets of hardwood, example, Burma Teak, Oak, Ebony, Eucalyptus, Elm and Ash Silver trees. They look and feel great as a top-layer on furniture and floors. Veneers can be applied on one or both sides of a surface. Greenpanel Veneers offer unlimited variety, and come in three product ranges: Teak Veneer, Natural Wood Veneer, and Spectrum Wood Veneer.

NATURAL VENEER

Greenpanel Natural Veneers are made from hardwood sourced from all over the world. It comes in 125 variants across five ranges.

EPICUREAN

We source exclusive veneers from around the world for this elite range.
