

GREENPANEL VENEERED FLOORS

Greenpanel Wood Veneer Floors have the look and feel of natural wood, along with all the advantages of a high-density fibreboard core. They have high tolerance for impact, and changes in humidity and temperature. They have a UV-cured lacquer coating to protect against scratches and stains. Greenpanel Wood Veneer Floors come with a warranty of 10 years. They are available in three luxe categories Classic: Natural wood-surface floors that are easy on the eyes and easier on the pocket. Premium: The plush look and feel of wood, with veneers that are handpicked from around the world. Elite: In a word, luxurious.

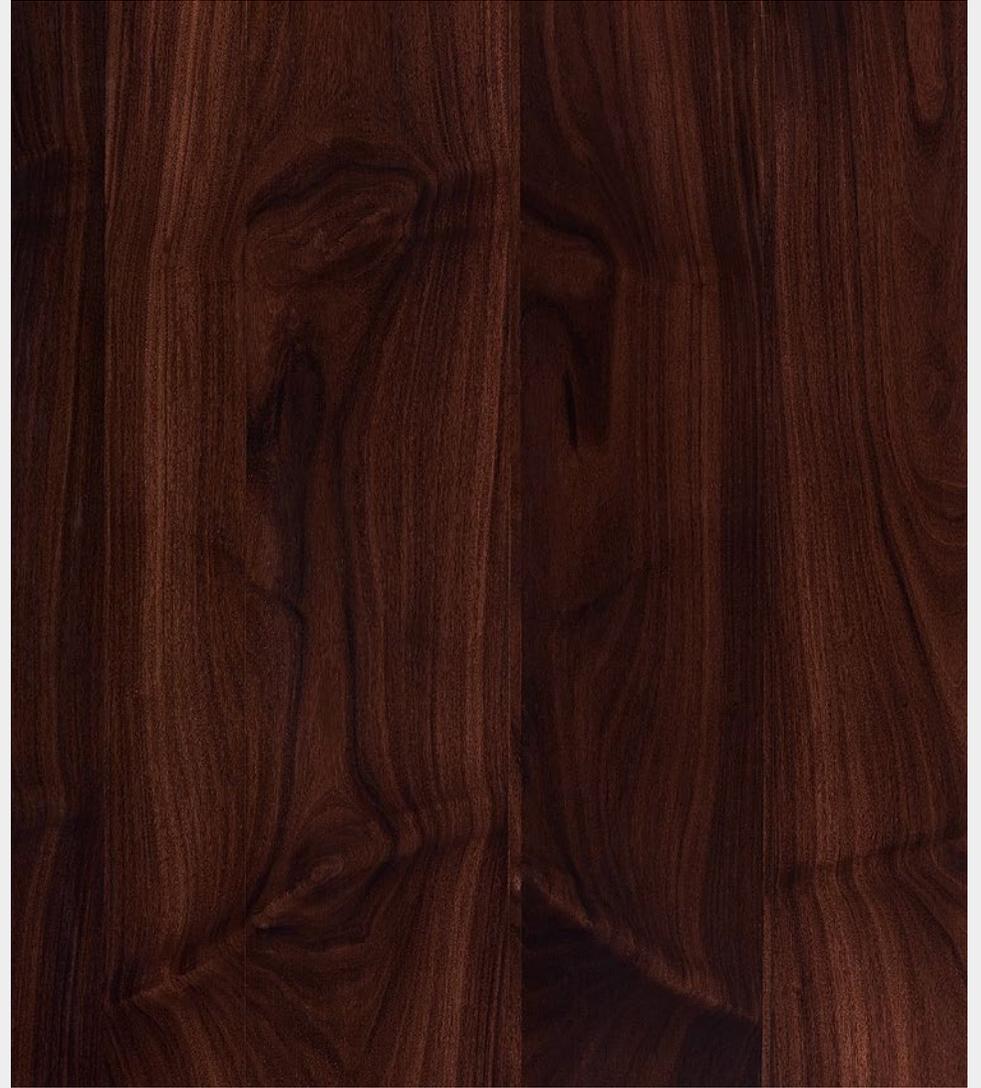

The background of the entire image is a close-up, high-resolution photograph of a dark brown wood grain. The wood has a prominent, wavy pattern with several knots and a rich, textured appearance. The lighting is slightly uneven, creating subtle gradients of brown and highlighting the natural grain of the wood.

ELITE

They have a UV-cured lacquer coating to protect against scratches and stains. A super-compact high-density fibreboard core gives them high tolerance for impact and humidity, as well as changes in temperature.
