

GREENPANEL LAMINATED FLOORS

Greenpanel offers a warranty of 10 years on AC3 grade floors that are well suited for residential and low footfall commercial spaces. Greenpanel AC4 grade laminate floors—suitable for offices, malls—come with a warranty of 15 years. Greenpanel Laminate Floors consist of four distinct layers: 1. High abrasion-resistance top layer, 2. Decorative design layer, 3. Super-strong 100% hardwood HDF core, and 4. Moisture-resistant backing layer.

The background of the entire image is a close-up, high-resolution photograph of a wood-grain laminate floor. The planks are arranged in a staggered pattern, with each plank overlapping the one below it and interlocking with the one to its side. The wood grain is a warm, medium-brown color with visible knots and natural-looking variations in tone. The lighting is even, highlighting the texture of the surface.

PLANKED

Planked Laminate Wood Floors have a slatted pattern, to emulate the look and feel of planks.
