Overview by MD & CEO

MDF Domestic volumes rose by 23% while export volumes fell by 75%. We consciously reduced exports since it was not economical to export at current wood prices and due to fall in international MDF prices. Overall MDF volumes were lower by 7% at 127239 CBM, primarily because of conscious reduction in MDF exports.

MDF EBITDA Margins at 16.4% were impacted by reduction in domestic realisations due to launch of volume-based schemes in Q4 due to increased competition and Higher wood prices

We maintained working capital discipline in a challenging quarter with net working capital at 28 and debtors at 7 days of turnover
